I'm an honest and outspoken individual who isn't afraid to be different. I stand up for my 'morals' regardless of the crowd. I've learned a lot from life's ups and downs, and am now more resilient because of it. I'm someone who's always eager to learn and explore new things. My impatience drives my curiosity and my desire to make things happen. I prefer spending my downtime reading a good book or playing team sports. And yes, I'm an aspiring junior programmer/dev who's passionate about creating something remarkable. Let's work together and make it happen!
